## Summary

I am a creative, passionate and proactive Front-end Developer with 5.5 years of experience in building high-performance, scalable, responsive web solutions. I expertise in UI/UX, accessibility, SEO, and SOLID principles. I am skilled in crafting solutions tailored to both user needs and business objectives. I am a strong problem-solver with attention to detail, excellent communication negotiation skills and a good team collaborator. I am experienced in dynamic environments, eager to overcome challenges and reach targets.

## Skills

- Frameworks and libraries: Vue 3 (Composition API), Vue Router, Vuex, Axios, Pinia
- Languages: HTML5, CSS3/SCSS, JavaScript (ES6+), jQuery, TypeScript
- Styling: Tailwind CSS v4, Bootstrap v5.3
- Backend/API: Node.js, Express, MongoDB, Mongoose, REST, Firebase, Postman
- Tools & Testing: Vite, Vitest, Git, Bitbucket, JIRA, Gulp, Photoshop 2024
- Deployment: GitHub, Netlify, Firebase

## Experience

**Delasport |** www.delasport.com                    Sofia / Varna, Bulgaria
**Mid Front-end Developer**                    August 2024 – April 2025
**Front-end Developer**                    September 2020 – July 2024

- Working on large-scale, high-performance SPA serving B2B and B2C markets in dedicated Agile Teams.
- Handling different request from the business in terms of logic and continuously improving the UX/UI of the core project of the company. Providing variety of possible scalable and maintainable solutions for each task, needed resources, ETA of implementation and all required deliverables in a timely matter.
- Collaborated with cross-functional teams to implement Responsively Designed Web-based solutions.
- Worked closely with Back-end Developers to communicate with REST APIs and endpoints.
- Worked on the legacy part of the project (BackBone.js) in order to improve functionality as also improve or implement new features using Vue 2 (Options API), Vue 3 (Composition API), JavaScript and TypeScript.
- Delivering Front-end implementations of XD/PSD/Figma and even .pdf files to "Pixel Perfect" Designs & Redesigns on client's websites ensuring that both design and functionality are seamlessly integrated.
- Collaborated with other internal Front-end Teams to keep company products quality at the highest level.
- Optimizing company products for maximum speed, scalability, and performance.
- Ensuring cross-browser, cross-platform, and device compatibility.
- Writing clean, maintainable and well-documented code following the internal and industry best practices.
- Documenting internal processes, workflows and writing new features guidelines.
- Onboarding and mentoring Junior Front-end teammates.
- Conducting code reviews for teammate's code solutions.

Frameworks and libraries: Vue 2 (Options API), Vue 3 (Composition API), Vue Router, Vuex, Axios
